I. Executive Summary

Bates County Memorial Hospital – Bates County, MO - 2019 Community Health Needs Assessment (CHNA) Wave #3

Creating healthy communities requires a high level of mutual understanding and collaboration among community leaders. The development of this assessment brings together community health leaders and providers, along with the residents, to research and prioritize county health needs and document community health delivery success. This health assessment will serve as the foundation for community health improvement efforts for the next three years.

<u>Bates County Memorial Hospital (BCMH)</u> previous CHNA was completed in 2016. (Note: The Patient Protection and Affordable Care Act (ACA) require not-for-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA). Wave #3 BCMH (Primary Service Area) CHNA assessment began July 2019 and was facilitated / created by VVV Consultants, LLC (Olathe, KS) staff under the direction of Vince Vandehaar, MBA.

Important community CHNA Benefits for both the local hospital and the health department, are as follows: 1) Increases knowledge of community health needs and resources 2) Creates common understanding of the priorities of the community's health needs 3) Enhances relationships and mutual understanding between and among stakeholders 4) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improving the health of the community 5) Provides rationale for current and potential funders to support efforts to improve the health of the community 6) Creates opportunities for collaboration in delivery of services to the community and 7) Provides guidance to the hospital and local health department for how they can align their services and community benefit programs to best meet needs, and 8) fulfills Hospital "Mission" to deliver quality health care.

Key CHNA Wave#3 Secondary Research Conclusions are as follows:

MISSOURI HEALTH RANKINGS: According to the 2019 Robert Woods Bates County Health Rankings Average was ranked 48th in Health Outcomes, 60th in Health Factors, and 15th in Physical Environmental Quality out of the 115 Counties.

- **TAB 1.** Bates County's population is 16,334 (based on 2017), with a population per square mile (based on 2010) of 20 persons. Six percent (5.9%) of the population is under the age of 5 and 19.1% is over 65 years old. Hispanic or Latinos make up 2.3% of the population and there are 1.4% of Bates County citizens that speak a language other than English at home. Children in single parent households make up 29% and 86.2% are living in the same house as one year ago. There are 1,098 Veterans living in Bates County.
- **TAB 2.** The per capita income in Bates County is \$25,873, and 14.4% of the population is in poverty. There is a severe housing problem of 75% and an unemployment rate of 4.4%. Food insecurity is 14%, and limited access to a store (healthy foods) is only 1%.
- **TAB 3.** Children eligible for a free or reduced-price lunch is at 55% and 85.8% of students graduate high school while 15% of students get their bachelor's degree or higher in Bates County. There are 2 Head Start Programs in Bates County.
- **TAB 4.** The percent of births where prenatal care started in the first trimester is 73.1%. Fortyone percent (40.8%) of births in Bates County occur to unmarried women. Births where mothers have smoked during the pregnancy is at 19.6% and the percent of babies that were born prematurely is 9.4%. There are 72.8% of WIC infants ever breastfed in Bates County.
- **TAB 5.** There is one primary care physician per 4,100 people in Bates County. Patients who gave their hospital a rating of 9 or 10 out 10 are 75% and there are 71% of patients who reported Yes, They Would Definitely Recommend the Hospital.

TAB 6. Medicare population getting treated for depression in Bates County is 17.5%. There are 4.4 days out of the year that are considered poor mental health days. The age-adjusted suicide mortality rate per 100,000 is 15.9 in Bates County.

TAB 7. Thirty-two percent (32%) of adults in Bates County are obese (based on 2019), with 26% of the population physically inactive. Seventeen percent (17%) of adults drink excessively and 21% smoke. The rate per 100,000 sexually transmitted diseases is higher than the comparative norm (285.8). Hypertension (56.9%), COPD (18.8%), Atrial Fibrillation (10.4%) and Asthma (11.5%) risk are all higher than the competitive norm

TAB 8. The adult uninsured rate for Bates County is 13%.

TAB 9. The life expectancy rate in Bates County is 74.2 for Males and 79.6 for Females. Alcohol-impaired driving deaths for Bates County is at 18%.

TAB 10. Thirty-six percent (36%) of Bates County has access to exercise opportunities and 39% monitor diabetes. Thirty percent (29%) of women in Bates County get annual mammography screenings. Seventy-seven percent (77.1%) of Bates County citizens have an annual PCP checkup and 53.1% have an annual Dental checkup (based on 2016).

Key 2019 Community Feedback Conclusions: Stakeholder feedback from residents, community leaders and providers (N=177) provided the following community insights via an online perception survey:

- Using a Likert scale, 57.6% of Bates County stakeholders would rate the overall quality of healthcare delivery in their community as either Very Good or Good.
- Bates County stakeholders are satisfied with the following services: Ambulance Services, Inpatient Services, Outpatient Services, Pharmacy, Clinics, and School Nurse.
- When considering past CHNA needs: Cost of Care, Billing, Urgent Care, Community Center and Drugs / Substance Abuse came up.

II. Methodology

[VVV Consultants LLC]

II. Methodology

a) CHNA Scope and Purpose

The federal Patient Protection and Affordable Care Act (ACA) requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital that has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

JOB #1: Meet/Report IRS 990 Required Documentation

- 1. A <u>description of the community served</u> by the facility and how the community was determined;
- 2. A description of the process and methods used to conduct the CHNA;
- 3. The <u>identity of any and all organizations</u> with which the organization collaborated and third parties that it engaged to assist with the CHNA;
- **4.** A <u>description of how</u> the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications;
- **5.** A <u>prioritized description of all of the community needs</u> identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
- **6.** A <u>description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.</u>

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community who are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

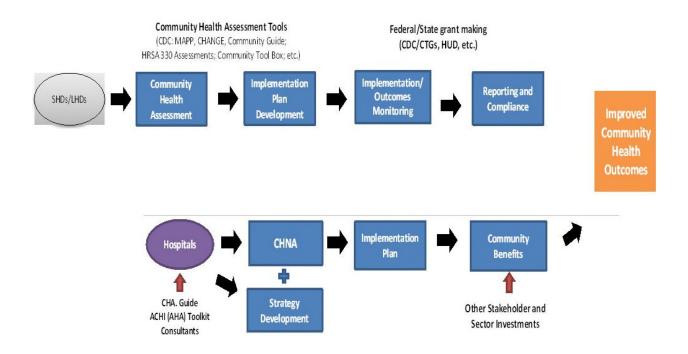

JOB #2: Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA** "widely available to the **public**" after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format or (2) a link to another organization's website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.

JOB #3: Adopt an Implementation Strategy by Hospital

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an "implementation strategy" as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from hospitals, the state health department and the local health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

IRS Notice 2011-52 Overview

Notice and Request for Comments Regarding the Community Health Needs Assessment Requirements for Tax-exempt Hospitals

Applicability of CHNA Requirements to "Hospital Organizations"

The CHNA requirements apply to "hospital organizations," which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

How and When to Conduct a CHNA

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public. The CHNA requirements are effective for taxable years beginning after March 23, 2012. As a result, a hospital organization with a June 30 fiscal year end must conduct an initial CHNA for each of its hospital facilities by June 30, 2013, either during the fiscal year ending June 30, 2013 or during either of the two previous fiscal years.

Determining the Community Served

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility's principal functions (e.g., specialty area or targeted disease). A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).

Persons Representing the Community Served

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: (1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc).

Required Documentation

The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA "widely available to the public" after the rules currently in effect for Forms 990. Accordingly, an organization would make a facility's written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization's website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.

How and When to Adopt an Implementation Strategy

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an "implementation strategy" as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

<u>Under the Notice, an implementation strategy is considered to be "adopted" on the date the strategy is approved by the organization's board of directors or by a committee of the board or other parties legally authorized by the board to act on its behalf. Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.</u>

IRS and Treasury Finalize Patient Protection Rules for Tax-Exempt Hospitals ACCOUNTING TODAY 1/2/15

The Internal Revenue Service and the Treasury Department have issued **final regulations** under the Affordable Care Act to protect patients in tax-exempt hospitals from aggressive debt collection practices and to provide other rules for charitable hospitals.

Under the **final regulations**, each Section 501(c)(3) hospital organization is required to meet four general requirements on a facility-by-facility basis: establish written financial assistance and emergency medical care policies; limit the amounts charged for emergency or other medically necessary care to individuals eligible for assistance under the hospital's financial assistance policy; make reasonable efforts to determine whether an individual is eligible for assistance under the hospital's financial assistance policy before engaging in extraordinary collection actions against the individual; and conduct a community health needs assessment, or CHNA, and adopt an implementation strategy at least once every three years. The first three requirements are effective for tax years beginning after March 23, 2010 and the CHNA requirements are effective for tax years beginning after March 23, 2012.

The ACA also added a new Section 4959, which imposes an excise tax for failure to meet the CHNA requirements, and added reporting requirements. These final regulations provide guidance on the entities that must meet these requirements, the reporting obligations relating to these requirements and the consequences for failing to satisfy the requirements. "Charitable hospitals represent more than half of the nation's hospitals and play a key role in improving the health of the communities they serve," wrote Emily McMahon, Deputy Assistant Secretary for Tax Policy at the U.S. Department of the Treasury, in a blog post Monday explaining the requirements. "But reports that some charitable hospitals have used aggressive debt collection practices, including allowing debt collectors to pursue collections in emergency rooms, have highlighted the need for clear rules to protect patients. For hospitals to be tax-exempt, they should be held to a higher standard. That is why the Affordable Care Act included additional consumer protection requirements for charitable hospitals, so that patients are protected from abusive collections practices and have access to information about financial assistance at all tax-exempt hospitals."

She noted that as a condition of their tax-exempt status, charitable hospitals must take an active role in improving the health of the communities they serve, establish billing and collections protections for patients eligible for financial assistance, and provide patients with the information they need to apply for such assistance. "These final rules adopt the same framework of proposed regulations but simplify the compliance process for charitable hospitals, while continuing to provide meaningful guidance on protections for patients and requirements to assess community health needs," she added.

Under the new rules, hospitals cannot charge individuals eligible for financial assistance more for emergency or other medically necessary care than the amounts generally billed to patients with insurance (including Medicare, Medicaid, or private commercial insurance). In addition, every tax-exempt hospital must establish and widely publicize a financial assistance policy that clearly describes to patients the eligibility criteria for obtaining financial assistance and the method for applying for financial assistance.

Charitable hospitals are also prohibited from engaging in certain collection methods (for example, reporting a debt to a credit agency or garnishing wages) until they make reasonable efforts to determine whether an individual is eligible for assistance under the hospital's financial assistance policy.

In addition, each charitable hospital needs to conduct and publish a community health needs assessment at least once every three years and disclose on the tax form that it files on an annual basis the steps it is taking to address the health needs identified in the assessment.

Many of the requirements have been in place since the Affordable Care Act passed in 2010, but in response to comments on the proposed regulations, the final rules also expand access to translations for patients, by lowering the threshold for having translations of financial assistance policies available from 10 percent of the community served as proposed, to five percent of the community served or population expected to be encountered by the hospital facility, or 1000 persons, whichever is less, according to McMahon. "The final rules also revise the notification requirements to maintain important protections for patients while making it easier for hospitals to comply with them," she wrote. "General notifications regarding a hospital's financial assistance policy must appear on bills and in the hospital. However, individual written and oral notifications of the hospital's financial assistance policy are now only required when a hospital plans to use extraordinary collections actions, such as reporting a debt to a credit bureau, selling the debt to a third party or garnishing wages."

While charitable hospitals must continue to make a good-faith effort to comply, the rules provide charitable hospitals with time to fully update their policies and programming to implement the changes. But if a charitable hospital fails to meet the consumer protection provisions required by the law, the hospital could have its tax-exempt status revoked. If a hospital fails to properly conduct a community health needs assessment or adopt an implementation strategy, an excise tax will apply, McMahon noted. "However, if a hospital fails to meet a requirement, but the failure is neither willful nor egregious, the hospital can correct and publicly disclose the error to have it excused, thus avoiding revocation of tax-exempt status, but the excise tax would still apply," she wrote.

CHNA NEWS: IRS Makes First Revocation of Hospital Not-for-Profit Status Under 501(r)

RICH DALY, HFMA SENIOR WRITER/EDITOR

Aug. 15, 2017—Charity-care reporting requirements under the healthcare reform law may have gone into effect only last October, but already one hospital has lost its not-for-profit tax status as a result. The first-time tax-status revocation under Affordable Care Act (ACA) 501(r) requirements applied to a "dual-status" 501(c)(3) hospital operated by a "local county governmental agency" and was confirmed by a redacted copy of the tax status letter, which was dated Feb. 14, 2017, and posted to the IRS website in August. Neither an IRS spokeswoman nor the redacted letter identified the hospital. Loss of the 501(c)(3) exemptions eliminates the ability of hospitals to use certain employee benefit plans; likely subjects hospitals to income, property, and other taxes; bars receipt of tax-deductible contributions; and disallows use of tax-exempt bonds.

The 501(r) requirements on performing community health needs assessments (CHNAs) and offering financial assistance became effective for tax years beginning on or after Dec. 29, 2015, meaning tax-exempt hospitals operating on the calendar had to be in compliance by Jan. 1, 2016, and those with a different fiscal-year end had to be in compliance by Oct. 1, 2016.

The only enforcement information previously released by the IRS was a June 2016 letter to Sen. Charles Grassley (R-lowa), which noted that at that point the IRS had completed 2,482 compliance reviews under 501(r). Additionally, 163 hospitals were assigned for "examination" as a result of those compliance reviews, but no further actions were identified.

The ACA requires the IRS to review the community-benefit activities of about 3,000 tax-exempt hospitals at least once every three years. This was the first time that Keith Hearle, president, Verité Healthcare Consulting, LLC, Alexandria, Va., had heard of an instance in which a hospital lost its not-for profit status over 501(r) requirements. He has heard of several others that incurred the \$50,000 excise tax for failing to meet the CHNA requirement.

"I would be surprised if it is a one-off," said Hearle, who has been expecting more IRS enforcement after his own reviews indicated widespread hospital vulnerability due to poor compliance.

Reasons for Revocation

Hospital 501(r) requirements include:

- Conducting a CHNA at least once every three years
- Making the CHNA publicly available on a website
- Adopting an implementation strategy to meet the needs identified in the CHNA
- Adopting a financial assistance policy and publicizing the policy, including by posting it on a website
- Limiting the amounts charged to individuals who are eligible for financial assistance
- Making individuals aware of the financial assistance policy prior to engaging in certain collection actions

Among the reasons for the IRS action against the county government hospital was its finding that the hospital did not make the CHNA widely available to the public through a website, although it had paper copies available on request. "The hospital indicated to the IRS that it might have acted on some of the recommendations included in the Implementation Strategy Report, but that a separate written implementation policy was neither drafted nor adopted," the IRS letter stated.

Officials at the small rural hospital said they lacked the staffing to comply with 501(r) requirements. They also said they "really did not need, actually have any use for, or want their tax-exempt status under Section 501(c)(3)," according to the IRS letter. The hospital believed its tax-exempt status somehow prevented its involvement in certain payment arrangements. It had maintained 501(c)(3) status "only in case any liabilities arose relating to the prior management company that had originally obtained that status from the IRS."

The IRS deemed the hospital's failure "egregious" because its leaders had "neither the will, the resources, nor the staff to follow through with the" 501(r) requirements.

Widespread Vulnerability

Industry advisers worry that many hospitals could be vulnerable to IRS enforcement—if not tax-status revocation—under the new requirements. "A lot of them just assume that what they have, in terms of policy and procedure, suffices under the final regulations and have not done a lot," said Andrew Kloeckner, a partner for Omaha-based law firm Baird Holm.

Even hospitals that have taken steps to become compliant with the requirements can face downsides, including complications with their collection efforts, which in turn can delay cash flow, Kloeckner said.

Jan Smith, a tax senior manager in Crowe Horwath's Healthcare practice, indicated that the likelihood of a similar penalty or the likelihood of this determination setting a precedent at other hospitals may be limited. This is due to the unusual position taken by the revoked hospital's officials that they didn't need or want charitable status (in addition to governmental status).

"If hospitals are making a good-faith effort to comply, I would be surprised if the IRS would revoke their tax status at this stage of 501(r) examinations," Smith said in an interview. However, she is aware of several health systems that the IRS is seeking to penalize under the CHNA tax provision.

The IRS's 501(r) compliance reviews include the agency's analysis of hospital websites and "other information designed to identify the hospitals with the highest likelihood of non-compliance," IRS Commissioner John Koskinen stated in his 2016 letter to Grassley.

Justin Lowe, senior manager with the Exempt Organizations Tax Practice at Ernst & Young, underscored that hospital websites are among the publicly available information that the IRS reviews. He urged hospitals to make sure that all required documents, including the CHNA and financial assistance policy, are on the website and easily findable. Insufficient approaches to 501(r) compliance, Kloeckner said, include instances when hospitals purchase financial assistance policy templates that are provided by a consultant and not submitted for legal review, potentially leaving audit vulnerabilities. Kloeckner also urged attention on practices and procedures outside of the policies.

<u>Small government-operated hospitals are among the most vulnerable to enforcement,</u> Hearle said, because they may not be required to file Form 990, which provides reminders about 501(r) compliance requirements. "It's a group of hospitals I'm concerned about," Hearle said.

Among the financial assistance requirements with which hospitals are most likely to struggle, Hearle said, is making available lists of physicians who are associated with the hospital and who utilize the same charity care policies.

"Patients obtaining charity care from a hospital want to find physician groups through which they can get the same charity care, as opposed to some group that doesn't offer charity care," Hearle said.

Public Health Criteria:

<u>Domain 1: Conduct and disseminate assessments focused on population health status and public health issues facing the community.</u>

Domain 1 focuses on the assessment of the health of the population in the jurisdiction served by the health department. The domain includes: systematic monitoring of health status; collection, analysis, and dissemination of data; use of data to inform public health policies, processes, and interventions; and participation in a process for the development of a shared, comprehensive health assessment of the community.

DOMAIN 1 includes 4 STANDARDS:

- **Standard 1.1 -** Participate in or Conduct a Collaborative Process Resulting in a Comprehensive Community Health Assessment
- Standard 1.2 Collect and Maintain Reliable, Comparable, and Valid Data That Provide Information on Conditions of Public Health Importance and on the Health Status of the Population
- **Standard 1.3** Analyze Public Health Data to Identify Trends in Health Problems, Environmental Public Health Hazards, and Social and Economic Factors That Affect the Public's Health
- Standard 1.4 Provide and Use the Results of Health Data Analysis to Develop Recommendations Regarding Public Health Policy, Processes, Programs, or Interventions

Required CHNA Planning Process Requirements:

- a. Participation by a wide range of community partners.
- b. Data / information provided to participants in CHNA planning process.
- c. Evidence of community / stakeholder discussions to identify issues & themes. Community definition of a "healthy community" included along with list of issues.
- d. Community assets & resources identified.
- e. A description of CHNA process used to set priority health issues.

Seven Steps of Public Health Department Accreditation (PHAB):

- 1. Pre-Application
- 2. Application
- 3. Document Selection and Submission

II. Methodology b) Collaborating CHNA Parties

Working together to improve community health takes collaboration. Listed below is an in-depth profile of the local hospital and health department CHNA partners:

Bates County Memorial Hospital Profile

615 W Nursery St, Butler, MO 64730

CEO: Dr. John Bustle Phone: 660-200-7000

About Us:

Bates County Memorial Hospital (BCMH), located approximately 60 miles south of Kansas City in Butler, Mo., serves Bates County and the surrounding communities, including Adrian, Archie, Amoret, Amsterdam, Appleton City, Butler, Drexel, Foster, Hume, Montrose, Nevada, Rich Hill and Rockville.

BCMH is a 60-bed acute care facility. We offer a wide range of services including a 24-hour physician-staffed emergency department, inpatient and outpatient surgery.

Commitment to Health Care

With our caring physicians, dedicated employees and specialty services, we are committed to providing health care with state-of-the-art technology. We are proud to offer extensive outpatient specialty clinics, with a qualified and professional staff. More than 120 health care providers comprise the medical and allied health staffs at BCMH and represent a broad cross-section of specialty care areas.

We invite you to get to know us better and discover all BCMH has to offer.

Mission – Why We Exist

To continuously improve the health of the people of our community.

Vision – What We Want to Be

The provider of choice for quality patient-centered care and health services in the community.

Values - Who We Are

Compassion—Show sincere care and kindness for those we serve.

Accountability—Take responsibility for our actions.

Respect—Treat everyone with dignity.

Excellence—Achieve excellence through innovation, team work and doing our best.

Smile—Always be friendly.

Critical Success Factors – How We Succeed

People—Maintain high-quality workforce.

Service—Improve customer service.

Quality—Improve prevention and health education services and Improve health outcomes.

Financial—Produce financial resources required to support the mission and values.

Growth—Expand access to health services.

Our Services

Bates County Memorial Hospital invites you review the many services we offer the community. We strive to bring to the community, quality healthcare, close to home. Our Outpatient Specialty Clinics offer services by the area's leading specialists. Our Hospitalist program utilizes physicians specializing in Inpatient care. Telemedicine consults are available with Cardiologists, Pulmonary and Infectious Disease specialists.

- Ambulance
- Breast Health
- Cancer Care
- Cardiac-Pulmonary Rehab

Bates County Health Center

501 N Orange St, Butler, MO 64730 Administrator: Jody Welston, RN

Hours: M-F 8:30 a.m. to 4:30 p.m. (First Thurs of each month: 8:30 a.m. to 7:00 p.m.)

Bates County Health Center was opened as a demonstration unit on April 1, 1975. A vote of the citizens on August 3, 1976 approved a mill tax for the continuation of the local public health agency. Since its establishment, the Bates County Health Center has been dedicated to protecting the health and well-being of the citizens of the county. Although services offered have changed over the years, we still strive to fulfill the mission of public health which is to Prevent, Promote, and Protect our citizens.

<u>Services</u>: The Bates County Health Center is dedicated to the prevention of disease and the maintenance of a high level of health in the family and community through education, immunization, inspection and response. A variety of health screenings, disease testing, immunizations, health education and certified birth and death certificates are offered at the Health Center. While some services are available at no cost to Bates County residents, others have a fee based on the cost of providing the service or based on fees set through Missouri State Statutes.

- Lab Screenings
- Immunizations and Vaccines
- Communicable Disease

- Temporary Medicaid
- STD/HIV

<u>Birth/Death Certificates</u>: Individuals may obtain a birth certificate for themselves or any immediate family member which includes those family members and in-laws in the direct line of descent up to but not including cousins if the birth occurred anywhere in the state of Missouri after 1920. Individuals may obtain a death certificate for any family member if the person passed away anywhere in the state of Missouri after 1980.

Health Education

PACE: People With Arthritis Can Exercise was created to keep joints flexible, muscles strong and to help reduce the pain and stiffness associated with arthritis. The low-impact class uses routines that are suitable for every fitness level using gentle range-of-motion movements. Classes are held on Monday and Friday from 10:00 a.m. to 11:00 a.m.

Aquatics: In conjunction with the PACE classes, during the summer individuals with arthritis can also take advantage of water exercises. Class size is limited and pre-registration is required.

Car Seat Classes and Safety Checks: Certified Child Passenger Safety Technicians provide classes to educate on child passenger seat safety and installation. The class is open to pregnant women who reside in Bates County. Once the individual attends and completes the instructional class they will receive a convertible safety seat for their child which can be used until the child reaches the maximum weight defined on the seat. When available, booster seat classes are also held for parents and grandparents who reside in Bates County. Certified Child Passenger Safety Technicians are also available for technical support, to answer questions and to check for proper installation of child seats.

Bike Helmets: Ensuring safety while promoting physical activity is the goal of the bike helmet program. Bike helmets are distributed through different organizations and activities within the county.

Children's Health and Safety Fair: As children prepare to return to school, the Bates County Health Center sponsors a Children's Health and Safety Fair which provides screenings such as height, weight, hearing, vision and others. Education booths are also there to provide health and safety information. Fire trucks and ambulance are on site for children to view and learn about. Games, prizes and food are also provided.

Safe Sitter Classes: Better Sitters Today/Better Parents Tomorrow; that is the motto of the certified Safe Sitter Babysitting class offered annually. The class is open to boys and girls ages 11-13 and prepares these young individuals on how to be the best sitter they can be. Topics covered include child care essentials, preventing injuries and problem behaviors, basic first aid and choking skills as well as safety and emergency actions.

Childcare Providers Training

Education and Consultation: The Child Care Health Consultation program is a collaborative program between the Missouri Department of Health and Senior Services and the Local Public Health Departments throughout Missouri to provide child care health consultation services to child care providers. It is supported in part by a special child care grant from the U.S. Department of Health and Human Services, Child Care Bureau and Maternal Child Health Bureau.

This program exists to provide child care health consultation to child care providers which promote safe sleep, health and developmentally appropriate environments for children in child care and to assist families and child care providers in accessing needed health and social services programs. Services are available to local child care providers, families and children in the child care facilities at no cost.

Consultation is available at child care homes, group homes or centers regarding child health and safety concerns. Training for child care providers to improve their health and safety knowledge and practices are offered on topics such as:

- Immunizations
- Poison Prevention
- Medication Administration
- Fire Safety
- Dental Health

- Nutrition and Physical Activity
- Communicable Disease
- · CPR and First Aid
- Sanitation

<u>WIC</u>: The Women, Infants, and Children Program, also known as WIC, is a federally funded nutrition education supplemental food program which provides services for pregnant, non-breastfeeding postpartum women (up to 6 months after delivery or termination of the pregnancy), breastfeeding women (up to 1 year after delivery as long as they are breastfeeding the baby), infants from birth up to 1 year of age, and children up to their 5th birthday. The program is designed to help mothers and young children eat well and stay healthy by providing health screening, risk assessment, nutrition education and counseling, breastfeeding promotion and referrals to health care as well as supplemental food items.

To qualify, individuals must meet income guidelines and be at a nutritional or health risk. Qualifying participants will receive vouchers for food items such as milk, juice, peanut butter, eggs, canned and dried beans, cereal, fresh and frozen fruits and vegetables, infant formula and baby food. Food packages are prescribed according to the individual's qualifying category. These food packages are to supplement the family's food budget but will not provide enough food to support the WIC clients for the entire month.

<u>Emergency Preparedness</u>: Emergencies or disasters can occur at any time. An all hazards response plan is prepared and integrated into the Bates County Emergency Operations Plan. Staff is prepared to respond to a public health emergency which is any threat to public health and safety such as an infectious disease epidemic or any event that has the potential for significant health impact to the community, such as a bioterrorism event. They are also prepared to respond in support roles in other types of emergencies or disasters.

<u>Environmental Health</u>: Through agreements with the Missouri Department of Health and Senior Services, Environmental Public Health Specialists inspect food establishments, lodging facilities, child care centers, and other environmental public health concerns. Sewage permits are also handled by the Environmental Public Health Specialist.

Supplies for testing of public drinking water for Total Coliform and E. coli bacteria are available through our office. All samples must be collected according to instructions and submitted with proper paperwork and payment to Missouri Department of Health and Senior Services State Public Health Laboratories.

b) Collaborating CHNA Parties Continued

Consultant Qualifications

VVV Consultants LLC

Company Profile: 601 N. Mahaffie, Olathe, KS 66061 (913) 302-7264

Vince Vandehaar MBA, Principal Consultant & Adjunct (913) 302-7264 wvv@vandehaarMarketing.com

Vince provides professional business consulting services to help healthcare organizations with business strategy, research and development. Specifically, Vince facilitates strategic planning, creates proven marketing plans/tactics, prepares IRS aligned community health needs assessments and conducts both qualitative and quantitative market research studies.

Vince started his consulting firm (VVV Consultants LLC) on 1/1/2009, after working for Saint Luke's Health System of Kansas City for 16 years. (Note: Saint Luke's Hospital of KC, SLHS's largest hospital, won the Malcolm Baldrige National Quality Award in March of 2003). Prior to his experience at Saint Luke's, Vince worked in the payor and insurance industry for Blue Cross and Blue Shield of Kansas City; Tillinghast, a Tower's Perrin Actuarial Consulting Firm; and Lutheran Mutual Life Insurance Company.

Vince also is an Adjunct Professor teaching BA, MBA & MHA classes part time 20% of his time at Avila, Rockhurst and/or Webster University (Strategic Planning, Marketing, MHA Capstone, Marketing Research, Sales & Social Media classes) and consults the remainder of his time.

Vince is a Malcolm Baldrige coach and a professional focus group moderator. He is actively involved in the national Society for Healthcare Strategy & Market Development (SHSMD), KHA/MHA Marketing Associations, KC Employee Benefit Professional Association, Healthcare Executives Kansas City, the American Marketing Association KC Chapter and is a SG2 advocate.

Collaborating Support:

Tessa Taylor BBA BA - VVV Consultants LLC Lead Consultant

II. Methodology

c) CHNA and Town Hall Research Process

Wave #3 Community Health Needs Assessment (CHNA) process began in July 2019 for BCMH to meet IRS CHNA requirements.

In July, a meeting was called by Bates County Memorial Hospital (Bates County, MO) to review possible CHNA collaborative options, in collaboration with Bates County Health Center. Note: VVV Consultants LLC from Olathe, KS was asked to facilitate this discussion with the following agenda: VVV CHNA experience, review CHNA requirements (regulations) and discuss CHNA steps/options to meet IRS requirements and to discuss next steps. Outcomes from discussion led to BCMH requesting VVV Consultants LLC to complete a CHNA IRS aligned comprehensive report.

VVV CHNA Deliverables:

- Document Hospital Primary Service Area meets the 80-20 Patient Origin Rule.
- Uncover / document basic secondary research county health data, organized by 10 tabs.
- Conduct / report CHNA Community Check-in Feedback Findings (primary research).
- Conduct a Town Hall meeting to discuss with community secondary & primary data findings leading to determining (prioritizing) county health needs.
- Prepare & publish CHNA report which meets ACA requirements.

To ensure proper PSA Town Hall representation (that meets the 80-20 Patient Origin Rule), a patient origin three-year summary was generated documenting patient draw by zips as seen below:

| Bates County Memorial Hospital - Define PSA FFY18-16 | | | | | | | |
|------------------------------------------------------|----------|-----------|-------|-------|--|--|--|
| Zip / City | County | Tot I/O/E | % | ACCUM | | | |
| 64730-Butler, MO | BATES | 67,012 | 52.5% | 52.5% | | | |
| 64720-Adrian, MO | BATES | 17,288 | 13.5% | 66.0% | | | |
| 64779-Rich Hill, MO | BATES | 14,418 | 11.3% | 77.3% | | | |
| 64724-Appleton City, MO | ST CLAIR | 3,403 | 2.7% | 80.0% | | | |
| 64722-Amoret, MO | BATES | 2,773 | 2.2% | 82.2% | | | |
| 64723-Amsterdam, MO | BATES | 2,687 | 2.1% | 84.3% | | | |
| 64752-Hume, MO | BATES | 2,677 | 2.1% | 86.4% | | | |
| 64780-Rockville, MO | BATES | 1,482 | 1.2% | 87.5% | | | |
| 64742-Drexel, MO | BATES | 764 | 0.6% | 88.1% | | | |
| 64745-Foster, MO | BATES | 692 | 0.5% | 88.7% | | | |

Specific CHNA roles, responsibility and project timelines are documented by the following calendar.

| | Bates Count | у Ме | emorial Hospital - CHNA Wave #3 |

| Step 1 | Date (Start-Finish) 3/22/2019 | Lead VVV | Task Sent VVV quote for review. |
| | | | |
| 2 | 4/10/2019 | Hosp | Select CHNA Option A/B/C. Approve and sign VVV CHNA quote. |
| 3 | 7/22/2019 | VVV | Hold Kickoff call. Send out REQCommInvite Excel file. Hospital to fill in PSA stakeholders names, addresses and emails. |
| 4 | 7/22/2019 | VVV | Request client to send MHA PO101, PO103 and TOT223 PO Reports for FFY 16, 17 and 18. In addition, request three year historical PSA IP/OP/ER/Clinic patient origin file (Use ZipPSA_3yrPOrigin.xls). |
| 5 | On or before 7/29/2019 | VVV | Prepare CHNA Wave #3 stakeholder feedback online link. Send text link for hospital review. |
| 6 | On or before 7/29/2019 | VVV / Hosp | Prepare and send out PR story to local media announcing upcoming CHNA work. Hospital to place. |
| 7 | On or before 7/29/2019 | VVV / Hosp | Prepare Email request to Roster Stakeholders announcing online CHNA Wave #3 feedback. BCC email from Hospital Administration. |
| 8 | By 8/2/2019 | VVV | Launch and conduct online survey to stakeholders. Hospital Admin will e-mail announcement to participate to all stakeholders. (Survey to end August 30, 2019) |
| 9 | August-Sept | VVV | Assemble and complete secondary research. Find and populate 10 TABS. Create Town Hall PowerPoint for presentation. |
| 10 | On or before 9/2/2019 | Hosp | Prepare and send out community Town Hall invite letter and place local ad. |
| 11 | On or before 9/2/2019 | VVV / Hosp | Prepare and send out PR story to local media announcing upcoming Town Hall. VVV will mock up PR release to media sources. |
| 12 | TBD Week prior to Town Hall | All | Conduct conference call (time TBD) with hospital and health department to review Town Hall data and flow. |
| 13 | Thursday, September 17th, 2019 (11:30am- 1:00pm) | VVV | Conduct CHNA Town Hall from 11:30 a.m. to 1:00 p.m. at BCMH Education Center. Review and discuss basic health data plus rank health needs. |
| 14 | On or before 10/30/2019 | VVV | Complete analysis. Release draft one and seek feedback from leaders at hospital and health department. |
| 15 | On or before 11/15/2019 | VVV | Produce and release final CHNA report. Hospital will post CHNA online. |
| 16 | 30 days prior to end of hospital fiscal year | TBD | Hold board meetings to discuss CHNA needs and create and adopt an Implementation Plan. Communicate CHNA plan to community. |

To meet IRS aligned CHNA requirements and meet Public Health accreditation criteria stated earlier, a four-phase methodology was followed:

Phase I—Discovery:

Conduct a 30-minute conference call with the CHNA county health department and hospital clients. Review / confirm CHNA calendar of events, explain / coach clients to complete required participant database and schedule / organize all Phase II activities.

Phase II—Qualify Community Need:

A) Conduct secondary research to uncover the following historical community health status for the primary service area. Use Missouri Hospital Association (MHA), Vital Statistics, Robert Wood Johnson Foundation: County Health Rankings, etc. to document current state of county health organized as follows:

| TAB 1. Demographic Profile |
|--------------------------------------------|
| TAB 2. Economic/Business Profile |
| TAB 3. Educational Profile |
| TAB 4. Maternal and Infant Health Profile |
| TAB 5. Hospitalization / Providers Profile |
| TAB 6. Behavioral Health Profile |
| TAB 7. Risk Indicators & Factors |
| TAB 8. Uninsured Profile |
| TAB 9. Mortality Profile |
| TAB 10. Preventative Quality Measures |
| |

B) Gather primary research (stakeholder feedback) to uncover public health needs, practices and perceptions for primary service areas.

Phase III—Quantify Community Need:

Conduct a 90-minute town hall meeting with required community primary service area residents. At each town hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur and a group ranking activity to determine the most important community health needs was administered.

<u>Phase IV—Complete Data Analysis and Create Comprehensive Community Health Needs</u> Assessment:

Post CHNA report findings to meet both PHAB and IRS CHNA criteria.

After consideration of CHNA stakeholders (sponsoring county health department and hospital), the CHNA Option C was selected with the following project schedule:

| Phase I: Discovery | July 2019 |
|-----------------------------------------|-----------------|
| Phase II: Secondary / Primary Research | July - Aug 2019 |
| Phase III: Town Hall Meeting | Sept 17, 2019 |
| Phase IV: Prepare / Release CHNA report | Oct - Nov 2019 |

Detail CHNA Development Steps Include:

| Development | Steps to Create Comprehensive | | | | | |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|
| Community Health Needs Assessment | | | | | | |
| Step # 1 Commitment | Determine interest level of area healthcare leaders (Hospital, Health Dept., Mental Health Centers, schools, churches, physicians etc.), prepare project quote. | | | | | |
| Step # 2 Planning | Prepare brief CHNA Project Work Calendar - list goals, objectives, purpose, outcome, roles, community involvement, etc. Hold community kick-off meeting. | | | | | |
| Step # 3 Secondary Research | Collect and report community health published facts. Gather data health practice data from published secondary research sources (i.e. census, county health records, behavioral risk factors surveillance, etc.) | | | | | |
| Step # 4a Primary Research - Town Hall prep | Collect community opinions. (quantitative research). Gather stakeholders / community opinions regarding community health needs and healthcare practices. | | | | | |
| Step # 4b Primary Research - Conduct Town Hall | Conduct "Conversation with Community" Town Hall (qualitative research). Review secondary & primary data findings. Facilitate community conversation to build consensus; discuss opinions / identify health needs. | | | | | |
| Steps # 5 Reporting | Prepare and present comprehensive CHNA report (to community leaders), facilitate development of CHNA Implementation Plan (actions to improve health). (Note: formal report will follow IRS Notice 2011-52 regs & PHAB requirements.) | | | | | |
| VVV Consultants, LLC Olathe, KS | (913) 302-7264 | | | | | |

Overview of Town Hall Community Priority Setting Process

Each community has a wealth of expertise to be tapped for CHNA development. For this reason, a town hall is the perfect forum to gather community insight and provide an atmosphere to objectively consensus build and prioritize county health issues.

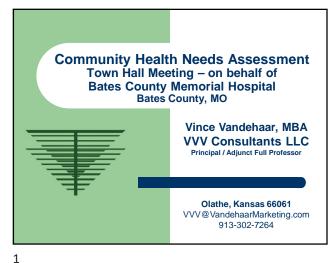

All Town Hall priority-setting and scoring processes involve the input of key stakeholders in attendance. Individuals and organizations attending the Town Halls were critically important to the success of the CHNA. The following list outlines partners invited to Town Hall: local hospital, public health community, mental health community, free clinics, community-based clinics, service providers, local residents, community leaders, opinion leaders, school leaders, business leaders, local government, faith-based organizations and persons (or organizations serving them), people with chronic conditions, uninsured community members, low income residents and minority groups.

Bates County Memorial Hospital (BCMH) (Bates County, MO), in collaboration with Bates County Health Center town hall meeting was held on Tuesday, September 17th, 2019 from 11:30 a.m. to 1:00 p.m. at the BCMH Education Center (615 West Nursery Street Butler, MO 64730). Vince Vandehaar facilitated this 1 ½ hour session with twenty-seven (27) attendees. (Note: a detailed roster of Town Hall attendees is listed in Section V a).

The following Town Hall agenda was conducted:

- 1. Welcome & Introductions
- 2. Review Purpose for the CHNA Town Hall & Process Roles
- Present / Review of Historical County Health Indicators (10 TABS)
- 4. Facilitate Town Hall participant discussion of data (probe health strengths / concerns). Reflect on size and seriousness of any health concerns cited and discuss current community health strengths.
- Engage Town Hall participants to rank health needs (using 4 dots to cast votes on priority issues). Tally & rank top community health concerns cited.
- 6. Close meeting by reflecting on the health needs / community voting results. Inform participants on "next steps."

At the end of each Town Hall session, VVV encouraged all community members to continue to contribute ideas to both hospital / health department leaders via e-mail or personal conversations. NOTE: To review detail Town Hall discussion content, please turn to Section V for detailed notes of session and activity card content reporting strengths & items to change or improve.

Community Health Needs Assessment (CHNA) Town Hall Discussion Agenda Opening / Introductions (10 mins) **Review CHNA Purpose and Process (10 mins) Review Current County "Health Status"** -Secondary Data by 10 TAB Categories -Review Community Feedback Research (35 mins) **IV. I. Introductions: A Conversation with the Community

Community members and organizations invited to CHNA Town Hall

CONSUMERS: Uninsured/underinsured people, Members of at-risk populations, Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

Community leaders and groups: The hospital organization's board members, Local clergy and congregational leaders, Presidents or chairs of civic or service clubs - Chamber of Commerce, veteran's organizations, Lions, Rotary, etc., Representatives from businesses - owners/CEO's of large businesses (local or large corporations with local branches,Business people & merchants (e.g., who sell tobacco, alcohol, or other drugs), Representatives from organized labor, Political, appointed and elected officials, Foundations, United Way organizations. And other 'Community leaders', Foundations, United Way organizations. And other 'Community leaders'.

Public and other organizations: Public health officials, Directors or staff of health and human service organizations, City/Community planners and development officials, Individuals with business and economic development experience, Weifard and social service agency staff, Mousing advocates - administrators of housing programs: homeless shelters, Jouricome-family housing and senior housing Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

Other providers: Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other failth-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health providers, and the providers of the provide

II. Review CHNA Definition

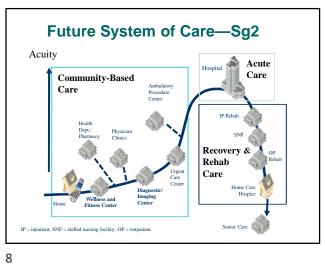

6

- A Community Health Needs Assessment (CHNA) is a systematic collection, assembly, analysis, and dissemination of information about the health of the community. (NOTE: Some the data has already been collected / published by Local, State and Federal public health organizations. Some data will be collected today.)
- A CHNA's role is to identify <u>factors</u> that affect the health of a population and <u>determine the</u> <u>availability of resources</u> to adequately address those factors.

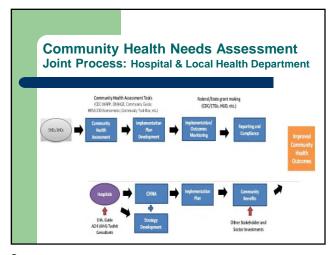

5

Purpose—Why Conduct a CHNA?

- To determine health-related trends and issues of the community
- To understand / evaluate health delivery programs in place.
- To meet Federal requirements both local hospital and health department
- To develop strategies to address unmet health needs (4-6 weeks after Town Hall)

7

II. IRS Hospital CHNA
Written Report Documentation

• a description of the community served
• a description of the CHNA process
• the identity of any and all organizations and third parties which collaborated to assist with the CHNA
• a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications
• a prioritized description of all of the community needs identified by the CHNA and
• a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA

III. Community Health Status

[VVV Consultants LLC]

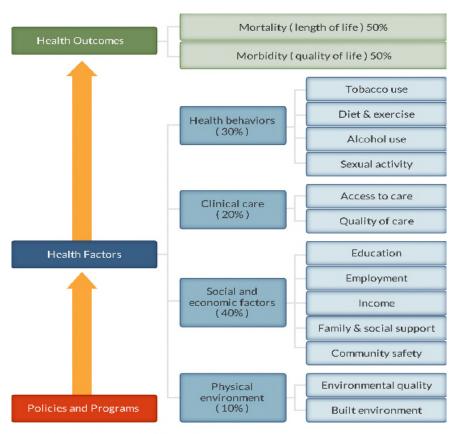

III. Community Health Status

a) Historical Health Statistics- Secondary Research

Health Status Profile

This section of the CHNA reviews published quantitative community health indicators from public health sources and results of community primary research. To produce this profile, VVV Consultants LLC staff analyzed & trended data from multiple sources. This analysis focuses on a set of published health indicators organized by ten areas of focus (10 TABS), results from the 2019 RWJ County Health Rankings and conversations from Town Hall participates. Each table published reflects a Trend column, with GREEN denoting growing/high performance indicators, YELLOW denoting minimal change/average performance indicators and RED denoting declining/low performance indicators.

Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*. As seen below, RWJ's model use a number of health factors to rank each county.>

County Health Rankings model ©2012 UWPHI

National Research – Year 2019 RWJ Health Rankings:

| # | 2019 MO Rankings - 115 Counties | Definitions | Bates County MO | Rural 20 MO Norms |
|------|------------------------------------|------------------------------------------------------------------------------|--------------------|----------------------|
| 1 | Health Outcomes | | 48 | 47 |

PSA Secondary Research:

When studying community health, it's important to document health data by topical areas for primary service area (PSA). Below is a summary of key findings organized by subject area.

Tab 1 Demographic Profile

Understanding population and household make-up is vital to start CHNA evaluation.

| Tab | | Health Indicator | Bates Co MO | Trend | MO State | Rural 20 MO Norm | Source |
|-----|---|-----------------------------------------------------------------------------------------|----------------|-------|-----------|---------------------|------------------------|
| 1a | а | Population estimates, July 1, 2017, (V2017) | 16,334 | | 6,113,532 | 23,322 | People Quick Facts |
| | b | Population, percent change - April 1, 2010 (estimates base) to July 1, 2017, (V2017) | -4.2% | | 2.1% | -1.3% | People Quick Facts |
| | 1 | Population per square mile, 2010 | 20 | | 87 | 37 | People Quick Facts |
| | d | Persons under 5 years, percent, July 1, 2017, (V2017) | 5.9% | | 6.1% | 5.9% | People Quick Facts |
| | е | Persons 65 years and over, percent, July 1, 2017 | 19.1% | | 16.5% | 19.8% | People Quick Facts |
| | f | Female persons, percent, July 1, 2017, (V2017) | 50.5% | | 50.9% | 49.2% | People Quick Facts |
| | g | White alone, percent, July 1, 2017, (V2017) | 95.9% | | 83.1% | 94.2% | People Quick Facts |
| | h | Black or African American alone, percent, July 1, 2017, (V2017) | 1.2% | | 11.8% | 2.8% | People Quick Facts |
| | i | Hispanic or Latino, percent, July 1, 2017, (V2017) | 2.3% | | 4.2% | 2.7% | People Quick Facts |
| | j | Foreign born persons, percent, 2013-2017 | 0.6% | | 4.0% | 1.4% | People Quick Facts |
| | k | Language other than English spoken at home, percent of persons age 5 years+, 2013-2017 | 1.4% | | 6.0% | 3.7% | People Quick Facts |
| | ı | Living in same house 1 year ago, percent of persons age 1 year+, 2013-2017 | 86.2% | | 84.3% | 85.0% | People Quick Facts |
| | m | Children in single-parent households, percent, 2019 | 29.0% | | 33.0% | 29.3% | County Health Rankings |
| | n | Total Veterans, 2013-2017 | 1,098 | | 424,605 | 2,005 | People Quick Facts |

Tab 2 Economic/Business Profile

Monetary resources will (at times) drive health "access" and self-care.

| Tab | | Health Indicator | Bates Co MO | Trend | MO State | Rural 20 MO Norm | Source |
|-----|---|------------------------------------------------------------------|----------------|-------|-----------|---------------------|------------------------|
| 2 | а | Per capita income in past 12 months (in 2017 dollars), 2013-2017 | \$25,873 | | \$28,282 | \$23,290 | People Quick Facts |
| | b | Persons in poverty, percent, 2017 | 14.4% | | 13.4% | 14.7% | People Quick Facts |
| | С | Total Housing units, July 1, 2017, (V2017) | 7,845 | | 2,792,506 | 10,685 | People Quick Facts |
| | d | Total Persons per household, 2012-2016 | 2.4 | | 2.5 | 2.4 | People Quick Facts |
| | е | Severe housing problems, percent, 2010-2014 | 75.0% | | 82.0% | 80.3% | County Health Rankings |
| | f | Total of All firms, 2012 | 1,209 | | 491,606 | 1,845 | People Quick Facts |
| | g | Unemployment, percent, 2019 | 4.4% | | 3.8% | 4.0% | County Health Rankings |
| | h | Food insecurity, percent, 2019 | 14.0% | | 15.0% | 13.9% | County Health Rankings |
| | i | Limited access to healthy foods, percent, 2019 | 1.0% | | 7.0% | 8.2% | County Health Rankings |
| | j | Long commute - driving alone, percent, 2019 | 44.0% | | 32.0% | 34.4% | County Health Rankings |

Tab 3 Educational Profile

Currently, school districts are providing on-site primary health screenings and basic care.

| Tab | | Health Indicator | Bates Co MO | Trend | MO State | Rural 20 MO Norm | Source |
|-----|---|-----------------------------------------------------------------------------|----------------|-------|----------|---------------------|-------------------------------------------------------------------------------------------------|
| 3 | a | Children eligible for free or reduced price lunch, percent, 2019 | 55.0% | | 51.0% | 54.2% | County Health Rankings |
| | b | Number of Head Start Programs, 2018 | 2 | | 379 | 3 | US Department of Health & Human Services, Administration for Children and Families. 2018. |
| | С | High school graduate or higher, percent of persons age 25 years+, 2013-2017 | 85.8% | | 89.2% | 87.7% | People Quick Facts |
| | d | Bachelor's degree or higher, percent of persons age 25 years+, 2013-2017 | 15.0% | | 28.2% | 17.0% | People Quick Facts |

Tab 4 Maternal and Infant Profile

Tracking maternal / infant care patterns are vital in understanding the foundation of family health.

| Missouri Resident Births (MICA) | | | | | | | | | | |

Email #1 – feedback survey

To: sbjerke@bcmhospital.com

BCC: Stakeholders, Staff, Community Leaders

Subject: BCMH seeking Community Feedback

Date: August 2nd, 2019

Bates County Memorial Hospital (Butler, MO) invites area residents to participate in a Community Health Needs Assessment (CHNA) online feedback survey. The goal of this assessment is to understand progress in addressing community health and to collect up-to-date community health perceptions.

To accomplish this work, a short online survey has been developed and can be accessed by visiting the following website or going to BCMH's Facebook page:

https://www.surveymonkey.com/r/BatesCo_CHNA_2019

VVV Consultants LLC, an independent research firm from Olathe, KS, has been retained to conduct this community wide research. All community residents are encouraged to **complete the confidential CHNA 2019 online survey by Friday**, **August 30**th and to attend the upcoming scheduled Town Hall on Tuesday, September 17th from 11:30-1:00pm.

If you seek any additional information or have any questions regarding this assessment, please contact Shannon Bjerke at sbjerke@bcmhospital.com or 660-200-7072.

BCMH seeking Community Feedback for 2019 Health Needs Assessment

Bates, MO In order to gauge the overall healthcare needs of Bates County MO residents, Bates County Memorial Hospital invites area residents to participate in a Community Health Needs Assessment (CHNA) online feedback survey. The goal of this assessment is to understand progress in addressing community health and to collect up-to-date community health perceptions.

To accomplish this work, a short online survey has been developed and can be accessed by visiting the following website or going to BCMH's Facebook page:

https://www.surveymonkey.com/r/BatesCo_CHNA_2019

VVV Consultants LLC, an independent research firm from Olathe, KS, has been retained to conduct this community wide research. All community residents are encouraged to **complete the confidential CHNA 2019 online survey by Friday**, **August 30**th and to attend the upcoming scheduled Town Hall on Tuesday, September 17th from 11:30-1:00pm.

"We hope that the community and health professionals will take advantage of this opportunity to provide input into the future of healthcare delivery in our county," comments Dr John Bustle, BCMH CEO.

If you seek any additional information or have any questions regarding this assessment, please contact Shannon Bjerke at sbjerke@bcmhospital.com or 660-200-7072.

Email #2 - Town Hall Invite

To: sbjerke@bcmhospital.com

BCC: Stakeholders, Staff, Community Leaders
Subject: Bates County Community Town Hall – Sept 17

Date: August 26th, 2019

Bates County Memorial Hospital is updating their 2016 Community Health Needs Assessment (CHNA). A short survey has been developed and results will be shown at the upcoming meeting. VVV Consultants LLC from Olathe KS has been retained to conduct this community-wide research.

The Bates County, MO CHNA Town Hall working lunch meeting is on Tuesday, September 17th from 11:30 a.m. to 1:00 p.m. at BCMH Education Center (East side of Hospital on Main Floor). At this meeting, we will discuss the initial online survey results and set priorities. A light lunch will be provided starting at 11:15 a.m.

Please RSVP here for the Sept 17th Town Hall:

https://www.surveymonkey.com/r/BatesCo_MO_CHNA_RSVP_2019

Thank you in advance for your time and support in participating with this important request. If you seek any additional information or have any questions regarding this assessment, please contact Shannon Bjerke at sbjerke@bcmhospital.com or 660-200-7072.

Let Your Voice Be Heard!

Bates County Memorial Hospital (BCMH) is partnering with area providers to update the 2016 Bates County, MO Community Health Needs Assessment (CHNA). To collect current community feedback, a short online survey has been created to uncover any current community health issues and evaluate local health delivery.

While your participation is voluntary and confidential, all community input is valued. Thank you for your attention! Deadline to participate is Friday, August 30th.
