Policy holder ID _____ Member's Employer _____ Policy No. _____

FAMILY CARE CLINICS

CONSENT FOR TREATMENT OF A MINOR

When you're away from home, it's important that your children are able to access non-emergent health care. To make sure that your children are fully protected when you are away from them, you should provide written authorization for a responsible adult to consent to medical treatment for your children.

Unless a child's injuries are life threatening, hospitals, physicians and other health care providers are required by Missouri law to have permission from the parent or guardian before treating children under 18 years of age.

GETTING THE CARE THEY NEED

MEDICAL CONSENT

If you leave your children with a relative or babysitter while you're out of town, you should authorize, in writing, a responsible adult who can consent to medical treatment for your child during your absence. You can do this by filling out the attached form and asking the responsible adult to keep it on hand in case medical treatment is required. The form should be taken to the hospital or the doctor's office if your child needs medical treatment during your absence.

EACH CHILD

A separate authorization form is needed for each of your children, and it is helpful if you complete a new form each time you go out of town. Additional copies of this authorization may be obtained from any Family Care Clinic location in Adrian, Butler or Rich Hill, or by calling **660-200-7063**.
