Get to Know Our Procedures

CHECK IN

- Always check in at the front desk when you arrive.
- Be prepared to supply information during your check in like:
 - Identification
 - Insurance Cards
 - Addresses
 - Phone Numbers

READ

- As a new patient, we want you to be aware of how we do things so you know what to expect from us, and what we expect from you.
- If you would like to have copies of any of these information sheets, just ask at the front desk. You can also find this information at <https://www.bcmhospital.com/new-patient-information-fcc/>

ASK

- If you have questions or concerns, please ask! We will connect you with the right person to answer your questions.

OUR SERVICES

Family Care Clinics of BCMH are rural health clinics providing care for you and your family where you need it most – close to home. Our team of family medicine physicians, nurse practitioners and physician assistants are here to treat patients of all ages. Therapy services are also available for patients over 10 years old.

Services are provided without regard to race, color, national origin, creed, religion, ancestry, disability, age, gender/ gender identity or source of payment.

Visit our website to learn
more about services
provided at BCMH:
www.bcmhospital.com

Office visits may include but are not limited to:

- Collection of medical history
- Review of medication list
- Physical examination
- Assessment of health status and health care needs
- Treatment of acute and chronic conditions
- Preventative care
- Referrals to specialists and consultants
- Assessment of behavioral needs
- Consult with behavioral health consultant
- Emergency care
- Diagnostic tests or labs
- Immunizations
- Family planning
- Minor procedures
- Care management of chronic conditions
- Patient education

CONTACT US

For appointments or questions about your appointment, call **660-200-3627**.

**Central
Scheduling:**
660-200-3627

Adrian:
816-297-2640
High Street:
660-200-7135
Nursery Street:
660-200-7133
Rich Hill:
417-395-2155

What if I have a medical question during business hours?

Central schedulers and front desk staff transfer medical questions to the triage nurse. Triage nurses are available at each location to take patient calls and answer patient portal messages, Monday-Friday, 8:00 am - 4:30 pm.

- Voicemails and portal messages received before 3:00 pm will be returned the same business day
- Voicemails and portal messages left after 3:00 pm will be returned the following business day.

What if I have a medical question after hours?

After-hours calls made to the main clinic numbers are forwarded to on-call providers. Please reserve after hours calls for urgent issues only.

Medication Refills

Requests for refills should not be called to the clinics. Call your pharmacy or request refills using the Patient Portal.

CHOOSING A PRIMARY CARE PROVIDER

It is important that you select a PCP and schedule your appointments with them when possible. Your PCP can make better decisions about your health care if they have information from all the providers you see. To have your records sent from facilities outside BCMH use these fax numbers:

Adrian
Family Care Clinic
Fax: 660-679-0691

Nursery Street
Family Care Clinic
Fax: 660-679-0675

High Street
Family Care Clinic
Fax: 660-679-0693

Rich Hill
Family Care Clinic
Fax: 660-679-0690

A primary care provider (PCP) is a health care practitioner who sees people that have common medical problems. This person is usually a doctor, but may be a physician assistant (PA) or a nurse practitioner (NP). Your PCP is often involved in your care for a long time, so it's important to select someone you feel comfortable with because you will be working as a team. A PCP is your main health care provider in non-emergency situations. Your PCP's role is to:

- Provide preventive care and teach healthy lifestyle choices
- Identify and treat common medical conditions
- Assess the urgency of your medical problems and direct you to the best place for care
- Include a social worker visit to address behavioral needs if indicated
- Provide care management for chronic or poorly managed conditions

SIGN UP FOR THE PATIENT PORTAL

Sign Up Today

On your first visit to one of our clinics, you will be asked if you wish to register for the Patient Portal.

Or, call 660-200-7063 for help setting up your portal and portal-related questions.

Our easy-to-use Patient Portal allows you to do the following tasks, and more, anywhere you have an Internet connection:

- Send questions to your Family Care Clinic Provider
- View test results ordered by your Family Care Clinics provider
- Request an appointment
- Request medication refills
- View your allergies, vaccinations and health records
- Register for access on your portal to manage medical information and/or billing for your children or as a caregiver for an adult (with a signed waiver)
- Pay your bill and view statements
- Manage your contact information
- Self check-in for appointments
- Cancel Appointments
- Update address and insurance information
- Complete health history forms online
- Security

When you sign up for the patient portal, you will receive notices by email when there is important information awaiting you in your Patient Portal account. The portal uses the latest encryption technology to provide secure communication between patients and their health care team. If you choose to use the Patient Portal, your name and email address will be treated with the same care and privacy given to your medical records.

PATIENT PORTAL

Q&A

Get help with the portal

For assistance with setting up or help with your existing Patient Portal account, call 660-200-7063, or talk to any of our registration staff members.

Q: How do I sign up for the Patient Portal?

A: Present your ID at any BCMH or Family Care Clinic admissions desk and request a portal invitation to be sent to your email, or a text message to your smartphone.

Q: I have children. Do I need to set up a portal account for each one of them?

A: No. Once you've set up a portal account for yourself, contact admissions staff to enable "family member access" to each child's health information.

Q: I am responsible for another adult's medical bills. Can I see their bills or pay them on the portal?

A: Only if the patient has directed admissions staff to give you billing access to their portal account by signing a Disclosure of Health Information form.

Q: I have made several payments and none are listed.

A: Only payments made on the patient portal will show up under the payment history. For specific payments, contact the hospital billing department for assistance.

Q: I can't find my test results in the portal.

A: If you do not see your results within the time period your FCC provider mentioned, send a message via the portal asking your provider to send your results to your portal.

Q: What if I change my mind and don't want the Patient Portal anymore?

A: Portal accounts can be self-deleted at any time. Our registration staff can also delete a portal account upon patient request.

SCHEDULING APPOINTMENTS

An important note about No Show/No Call:

The No Show/No Call process is when a patient fails to arrive for a scheduled appointment or fails to call to cancel a scheduled appointment. Patients will be charged a \$25.00 fee per scheduled appointment for which they have not called or shown up on the day of the scheduled appointment. This fee will be collected at the next scheduled appointment and it will be collected just as copayments or coinsurance payments are at the time of registration. This charge is not covered by Medicare/Medicaid or private insurers as this is a charge for a missed business opportunity, not rendered care services. No fees are charged due to missed appointments during inclement weather.

When scheduling an appointment it is helpful to let the scheduler know the kind of appointment you need.

Routine Appointments include well child checkups, well adult checkups, sports, work and insurance physicals. These are non-urgent and may be scheduled up to 6 months from time of request.

Follow-up Appointments include return visits and follow-ups to ER or hospital visits. These are scheduled as needed. For your convenience, return visits can be scheduled during checkout.

Acute Appointments include visits for new or developing illness, injury, infection, or severe pain. These are scheduled the same day when possible. If your primary care provider has no opening you may be offered a same day appointment with an alternate provider.

Same-Day Appointments: A limited number of same day appointments are available any day the clinic is open and can be scheduled by calling Central Scheduling after 8:00 a.m.

Reminder Calls: Make sure we have a valid phone number so you can receive a reminder call for your appointment. Automated reminder calls go out 2 days prior to your appointment. Reminder calls are provided as a convenience to patients.

Minimizing Wait Time: We prioritize reducing the time you spend waiting in our clinics. We ask that you arrive 15 minutes before your appointment time. Each patient needing services from a provider must have an individual appointment. You can be added to a family member's appointment only when there is an opening in the schedule.

Late Arrivals: Patients who arrive 15 minutes beyond the scheduled appointment time without calling or notifying the clinic will be offered the opportunity to reschedule or wait to be seen if there is an opening in the schedule. New patients who arrive 15 minutes beyond the scheduled appointment time will only be able to reschedule with the permission of the Provider or Clinic Supervisor.

Cancellations: Please call Central Scheduling to cancel an appointment: 660-200-3627 - or use the Patient Portal.

Appointments should be cancelled at least 24 hours in advance whenever possible.

HEALTH INSURANCE

Do You Have Health Insurance?

If not, please visit www.healthcare.gov. Open Enrollment happens November through January of each year. Special Enrollment may be done at any time if you have a baby, get married, lose job-based coverage or have certain other life changes. To find out if you qualify for special enrollment exemption, log on to www.healthcare.gov and answer a few quick questions.

You may apply for Medicaid (MO HealthNet) or the Children's Health Insurance Program (CHIP) at any time and can enroll immediately at www.dss.mo.gov if you meet eligibility requirements. In Missouri, Medicaid for adults is limited to coverage for adults who are pregnant, blind, over 65 and drawing social security benefits or persons deemed disabled by Social Security and are drawing disability benefits. You may also make an appointment with the BCMH Patient Accounts Counselor for assistance with applying for Medicare or Medicaid. Call 660-200-7314.

What to do if you do not qualify or cannot afford health insurance

Financial assistance is available for those who qualify. Speak with our financial counselor who will help you determine if you qualify for benefits. Financial assistance forms for Family Care Clinics and Bates County Memorial Hospital are available at the front desk in all clinic locations upon request.

Fill out the financial assistance form and provide copies of required income documentation as stated on the cover page of the application. Then make an appointment with:

**Financial Counselor, Bates County Memorial Hospital,
660-200-7314**

The Financial Counselor's office is located in the hospital's front lobby. Family Care Clinics offer discounts and payment plans for those who are uninsured or underinsured.

As your primary care provider, I will:

- Learn about you and what affects your health
- Suggest treatments that make sense for you
- Take care of short-term illness, chronic disease, and your all-around well-being
- Keep you up-to-date on all your vaccines and health maintenance screening
- Make referrals to specialists and coordinate your care with them as your health needs change
- Use current standards of practice to deliver you the best care possible
- Be available to you during and after hours for your urgent needs
- Notify you of test results in a timely manner
- Listen to your questions and feelings
- Communicate clearly with you so you understand your conditions and all your options
- Help you make the best decisions for your care
- Share information about classes, support groups, or other services that can help you self-manage your health
- Provide you access to your health information including electronic access on the patient portal

PATIENT RESPONSIBILITIES

We trust you, as our patient, to:

- Know that you are a full partner with us in your care
- Provide a complete medical history and any pertinent information that affects your health
- Provide updates on medications, supplements, or over the counter remedies you are using
- Let us know when you see other health care providers including emergency room visits
- Keep scheduled appointments or call to reschedule or cancel in advance of your appointment time
- Ask questions about your care and tell us when you don't understand something
- Learn about your conditions and what you can do to stay as healthy as possible
- Follow the plan that we have agreed is best for your health
- Take medications as prescribed
- Call if you do not receive your test results within two weeks
- Contact us after hours only if your issue cannot wait until the next work day
- When possible, contact us before going to the emergency room, we may be able to help you avoid an ER visit
- Understand that if you need to see another Family Care Clinic provider, they have access to your electronic medical record
- Learn about your health insurance coverage and know who to contact if you have any questions about your benefits
- Pay your share of any fees
- Give us feedback to help us improve our care for you
